November 16, 1948

NDA 6488

Federal Security Agency
Food & Drug Administration
Washington 25, D. C.

ATT: DR. ERWIN E. NELSON
Acting Medical Director

Dear Dr. Nelson:

Supplementing our application for XYLOCAINE filed on May 4, 1948⁷, we herewith submit a case-by-case report of tests run by Dr. Hingson at John Hopkins Hospital. We also enclose a report from Dr. Southworth of U. S. Marine Hospital, Baltimore.

We are running dental tests at Tufts College Dental School in Boston, and they have sent directly to you a preliminary report on XYLOCAINE, which we hope you have received.

We hope that the reports from these institutions will prove the safety and effectiveness of this new local anesthetic, and we respectfully ask that you allow the application to become effective, and advise us accordingly.

Yours very truly
